TECHNICAL SPECIFICATIONS

L60R SIDE VIEW DIAGRAM

- **Working Height**: 63' / 19.2 m
- **Working Side Reach**: 56' / 17.1 m
- **Platform Capacity**: 500 lbs / 227 kg
- **Platform Size**: 40 x 60" / 102 x 152 cm
- **Platform Type**: EZR Removable
- **Lifting Capacity (Main Winch)**: 5,900 lbs / 2676 kg
- **Jib Winch**: 500 lbs / 227 kg
- **Powered Boom Sections**: 3
- **Overall Height**: 12'0" / 3.6 m
- **Unit Weight (Bare)**: 13,500 lbs / 6123 kg
- **Outrigger Spread Main**: 18' / 5.5m
- **Outrigger Spread Auxiliary**: 12'6" / 3.8 m
- **Minimum Front Axle GAWR**: 10,000 lbs / 4536 kg
- **Minimum Vehicle GVWR**: 25,999 lbs / 11 793 kg

Dimensions approximate and vary with truck specifications.  
G.V.W.R.-25,999 lbs.  Front axle-10,000 lbs.  Rear axle-19,000 lbs.
**TECHNICAL SPECIFICATIONS**

**Maximum Platform Height:** 57’ ground to platform floor.

**Working Range:** 63’ max. working height and 56’ max. side reach.

**Work Platform:** Updated 40”x60” EZR end-hung work platform with 40” high rails and aluminum floor. Equipped with two safety lanyard attachment loops and two safety harnesses with 72” lanyards. Platform capacity 500 lbs.

**Platform Leveling System:** Hydraulic "closed" system consisting of twin platform cylinders interacting with a boom-actuated master cylinder mounted in boom support turret. System provided with factory-set relief valves to compensate for oil expansion or overload during platform leveling operation. Remote releveling controls provided in platform and at ground controls to give precise releveling capability.

**Platform Controls:** Three individual proportional electronic controllers meter pilot-operated, pressure-compensated modulating valves. Remote controls for boom operations from platform operate from a steel remote control box. Hi/Lo range, start/stop and engine speed switches are also located at platform. Electric remote control cable extends through the electrical slip ring to cable carrier on side of boom to extending boom sections.

**Lower Controls:** Mounted on roadside of turret.

**Outrigger Controls:** Parallel open-center stack valve for lever-operated control of right and left outriggers. The outrigger valves are mounted at the rear, under each corner of the bed with roadside valve controlling roadside outriggers and curbside valve controlling curbside outriggers.

**Outriggers:** One set of “MH” type main outriggers at rear of bed with 12’ spread behind cab.

**Frame:** One piece, all welded, box-type fabrication with integral outrigger mounts.

**Turret:** Reverse offset turret is one-piece weldment mounted on turret box. Turret rotates on large diameter ball bearing.

**Rotation:** Continuous turret rotation with no stops. Hydraulic motor drives turret through self-locking gear box.

**Boom:** Steel rectangular tube sections. Assembly includes heavy-duty cylinder fittings, pivot pins, and replaceable wear pads.

**Boom Extension:** Two opposing “piggyback” cylinders extend the boom sections.

**Lift:** One single-acting full displacement, long stroke cylinder, provides smooth and stable boom elevation. Holding valve prevents boom from falling in event of hose failure.

**Cylinders:** All cylinders use microhoned cylinder tubing, chrome shafts, top grade packing and protective rod wipers. Cylinder-mounted holding valves provided on all load-holding cylinders.

**Hoses:** All high pressure hoses are wire braid reinforced with a minimum safety factor of 4 to 1.

**Oil Tank Capacity:** 35 gallon mounted to truck frame on roadside.

**Hydraulic System:** Operating pressure is 2,500 PSI. System is parallel open center type and is equipped with liquid-filled pressure gauge. Oil is supplied to upper cylinders through hydraulic union in center of turret to cable carrier along side of the boom.

**Pump:** Gear type, direct mount to truck PTO.

**PTO:** Heavy-duty, high-speed with switch in cab.

**Cab Equipment:** PTO switch with indicator lights installed in truck cab. Engine speed control and start/stop installed with control switches in platform remote control box and also located at lower controls. U/L approved 5:BC dry chemical fire extinguisher installed in truck cab.

**Operators Manual & Video:** Two CDs and one printed copy of operation, maintenance, safety and parts manual provided with each unit. Operational and safety video provided at delivery.

**Installation:** Unit installed on truck, painted, system and tank filled with oil, tested, inspected, and ready to operate.

**Standard Paint:** Paint boom and turret red, outriggers red, and bed and boxes black. Top of steel bed painted with black nonskid surface.

**Bumper:** Bureau of Motor Carrier Safety rear bumper.

**Weight:** Approximately 13,500 lbs. with 16’ steel-floor bed less truck.

**Truck Chassis Required:** Approx. 120" C.A. RBM 900,000 in-lb. per rail, 10,000 lb. front axle and 25,999 lb. GVWR required. Trucks must have increased cooling, heavy-duty front and rear springs, 12V electrical system with high capacity alternator, cab clearance stop/tail/backup lights, and I.D. lamps. Recommended GVWR is minimum for HI-REACH with flatbed only. Contact factory when additional equipment is to be added.

**Options:**
- 5,900 lb or 2,000 lb Capacity Boom Winch.
- 500 lb Capacity Material Handling Jib.
- Welder, Air, and 110V Lines to Platform.
- Cab Guard With Platform Access.
- Underbody Toolboxes
- Much more....

JIB 500 LBS. MAXIMUM • PERSONNEL 500 LBS. MAXIMUM

ELLIOTT
EQUIPMENT COMPANY
Automatic Safety Rotation Lockout
Reduce outrigger spread with Elliott’s automatic safety rotation lockout option allowing you to safely shortjack MH outriggers for work in confined spaces.

Stowable Platform Jib Winch
Equip your HiReach platform with Elliott’s unique jib winch that stows in the platform and features an extendable boom and mast to lengthen your reach and reduce setup times.

High Capacity Boom Winch
Explore the 5,900 lb or 2,000 lb capacity boom winch options that convert the HiReach into a combination aerial work platform and material handler.

Outrigger Pad Holders
Outrigger pad holders safely store your pads for travel and leave plenty of room for tool boxes.

Bed Accessories
Mount a wide variety of tool accessories including welders, power washers, and generators on the bed with lines to the platform.

Platform Accessories
Choose from a list of “Office in the Sky” platform accessories including 110V outlets, welding leads, oxy/acetlene hoses, hydraulic tools, and much more.

Cab Guard and Walkway
Choose a steel cab windshield guard for added cab protection and walking access from the bed to the platform while in the stowed position.

Custom Toolbox Packages
Let us work with you to customize your storage options by choosing from an array of steel or aluminum underbody and abovebody toolboxes.
