BUILT FOR EVERY JOB, EVERY DAY

Sign and lighting work demands long side reach, precision positioning, and reliable material handling — all while minimizing setups and keeping crews productive. Elliott HiReach aerial work platforms are purpose-built for these tasks, combining powerful reach with a true “Office in the Sky” so your team can install, service, and maintain more signs and lights in less time.

- **Purpose-built** HiReach aerials designed for smooth, precise operation and long service life.
- **Multifunction platform tools** (110V, air, weld leads, pressure washer hose, jib winch, and more) so most jobs need only one truck.
- **Wide range of models available on non-CDL chassis** to simplify hiring and fleet management.
- **Exceptional uptime and resale value** to drive the lowest total cost of ownership.
- **U.S.-built**, backed by top-tier service, parts support, and industry-leading warranties.

FEATURE

BENEFIT FOR SIGN & LIGHTING APPLICATIONS

Long Side Reach & Tall Working Heights

Up to 84 ft of horizontal reach to complete more work per setup

Smooth Proportional Controls with High/Low Range

Fast to the work area; precise when placing letters, cabinets, or fixtures

Office in the Sky Platform Tool Suite

Power the tools you use (110V, air, welder, washer) right in the platform to reduce trips

Stow & Go Platform Jib (extends beyond rails)

Handle large faces and components without awkward rigging

Extendable sign forks on platform

Carry channel letters/sign faces safely and efficiently

Strong material handling on boom & in-platform

Lift and place heavy components with confidence

Non-CDL configurations up to 87' working height

Broaden your driver pool and simplify compliance

Robust subframe, turret & bearing

Enhanced stability, durability, and long service life

High-quality hydraulic components

Low maintenance, reliable performance

Dealer network + Elliott tech support

Faster turnaround and maximum uptime

ENGINEERED FOR UPTIME & ROI

Elliott machines are known for reliability, low maintenance costs, and high resale value—delivering a lower total cost of ownership over the life of the unit. The result: more completed jobs per day, fewer service interruptions, and stronger margins.

ELLIOTT SERVICE & SUPPORT: MAXIMIZING UPTIME, SUPPORTING YOUR SUCCESS

- Nationwide dealer network for sales, service, and parts
- Expert technical support and rapid troubleshooting
- Service-friendly design and durable components to maximize uptime
- Meets or exceeds applicable ANSI/ASME/OSHA compliance requirements

FINANCING AVAILABLE

Flexible options with competitive terms to align payments with revenue.

TRUSTED BY THOSE WHO BUILD BRANDS

Sign and lighting companies across North America rely on Elliott to install and maintain signs, lighting, and architectural features efficiently and safely. Our engineers collaborate with you to configure the optimal machine for your workflow and growth goals.

CUSTOM-BUILT HI-REACH TRUCKS FOR SIGN & LIGHTING PROS

For more than 75 years, we've been a trusted partner in the sign & lighting industry. We're not just dedicated to your success — we're invested in it. Below are a few of the key advantages our HiReach trucks bring to your operation:

- **Spacious, High-Capacity Platform** – Elliott's 40" x 60" platforms provide more than twice the room of a traditional two-worker bucket. Carry more crew, tools, and materials aloft in one trip.
- **Dual-Purpose Power** – HiReach combines best-in-class personnel lifting performance with material handling from the main boom and platform for people, signs, lights, and materials—reducing the need for a separate crane or bucket truck.
- **Set Up in Tight Areas** – Elliott's point and shoot design has zero tailswing, increasing safety and enabling set up in confined spaces
- **One-Touch Setup/Stow** – Automatic outrigger leveling and platform stow saves time and money.
- **Bluetooth Convenience** – Easily access machine diagnostics and machine performance information.
- **Options for Your Operation** – Configure your Elliott HiReach to match the way your crews work. Add platform welding, cutting, power, and air, extendable sign forks, platform jib, toolboxes and material racks, work lights/ cameras, custom storage, and more—so one truck carries the people, tools, and materials you need for every job.

Do more with one truck:
lift people, lift materials,
power tools, wash, cut,
weld, and install

**Complete more stops
per day with fewer
trips to the ground**

Reduce cost per job:
fewer service calls and
strong resale value

INCLUDED IN EVERY ELLIOTT PARTNERSHIP

**ONE-YEAR PARTS &
LABOR WARRANTY**

**LIFETIME STRUCTURAL
WARRANTY**

**MADE IN AMERICA
SINCE 1948**
